DISCUSSION

Kraemer WO'599 relates to a digital audio cassette that is functionally interchangeable with the conventional tape cassette. The electronic cassette provides digital-audio data in a package and format that is compatible with the shape and size of the tape cassette. A signal processor in the electronic cassette converts the stored digital-audio data in a format such as WAV or MP3 into a digital data stream that is converted into an analog signal and provided to a transducer that is

magnetically coupled to tape read head in a conventional cassette tape player. A display and controls on the electronic cassette allow a user to view the names of the digital-audio files and manipulate the files. The digital-audio sound files are stored in internal memory or in removable memory. The electronic cassette can be used in conventional analog tape recorder to produce digital-audio files that can be uploaded to a computer.

The E.DIGITAL, "NOMAD Jukebox Getting Started, Version 1.0," INTERNET ARTICLE discusses an MP3 player that incorporates a "Play List."

The Liam Deely. "Digital Audio Mutates," INTERNET ARTICLE discusses an MP3 player.

The Ashlee Vance and James Niccolai. "DataPlay Shows Breakthrough in Storage Media," INTERNET ARTICLE discusses a portable player having a postage size disc for storing as much as 500MB of data.

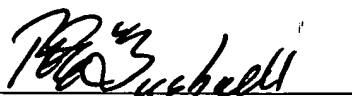

The E.DIGITAL, "How to Use and Enjoy Your Treo, TREO 10 Digital Music Jukebox," INTERNET ARTICLE discusses how to navigate and play music quickly on the TREO 10 portable jukebox.

Pursuant to 37 CFR §1.97 (e), each item of information contained in this Information Disclosure Statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three (3) months prior to the filing of this Information Disclosure Statement.

The citation of forgoing references is not tended to constitute representation to the Examiner that a search of the prior art has been made by the Applicant. Accordingly, the U.S. Examiner is requested to make a thorough and wide-ranging search of the prior art during the examination.

No fee is incurred by this Statement.

Respectfully submitted,

Robert E. Bushnell
